AT SANTIAGOGeneral Wood Returns to Find the
Situation Serious.

SUSPENSION OF PAYMENT

Cubans Will Be Given No More Money to Expel For Drink Until Fever Is Stamped Out—Trouble Anticipated—Money Desired to Purchase Farming Implements—Cuban Robbers Continue Outrages.

(By Telegraph to Virginian-Pilot.)
Santiago de Cuba, July 10.—General Leonard Wood, the Military Governor, returned this morning from the United States and immediately began vigorous action to stamp out the yellow fever. He finds the situation more serious than he had anticipated.

REMOVAL OF HEADQUARTERS.
To-morrow headquarters will move to Songo, twenty miles north on the railroad, a point about a thousand feet above sea level, as well as all the administrative departments, except the sanitary and a few immune clerks in the quartermaster's and commissary staffs.

PAYMENTS SUSPENDED.
The paymaster has been ordered to suspend all payments to the Cuban troops until the fever has been stamped out, the special object of the order being to prevent the soldiers from drinking during the epidemic.

TROUBLE PREDICTED.
Many predict that there will be trouble when the United States troops are entirely removed from the city, as there are many hundreds of destitute Cuban soldiers already here. They are expecting payment and have been, though for the best reasons, put off for a month.

FARMING IMPLEMENTS DESIRED.
Havana, July 10.—The Board of Agriculture of Puerto Principe has appointed Senors Cardenas and Luaces a committee to visit Washington and ask for an appropriation for the province to enable it to purchase farming implements.

AN OUTLAW KILLED.
The Manzanilla rural police have killed Robinson Arto, an escaping outlaw.

At Bayamo, 3,000 men are waiting payment. About 2,000 weapons have been delivered to the Mayor.

At Bojocal, two armed men hailed Julio Angulo, owner of the plantation Santa Rosa, and ordered him to open the door of his house. He hesitated or refused and they fired twice through the window, whereupon he complied. The men were Maximino Rodriguez and Antonio Moreno, who escaped from Bojocal jail last month. They bound Angulo, searched the house, secured \$50, and, having ordered him to bring an additional \$500 to a spot designated within an hour, under threat to return and kill him, they left with the planter's horse, rifle and machete.

OTHER OUTRAGES.
A short time afterward the same men practically repeated this performance on the plantation Guifales, belonging to Fernin Diaz. There they obtained ten centimes. They went next to the adjoining farm, the property of Jose Gonzales, where they secured \$10 and various articles of jewelry. Finally disappearing untouched by the bullets fired from the raided houses after their departure.

VAGRANCY ENCOURAGED.
The mayor of Alizquier has asked Governor General Brooke to cease sending rations to that point and to expend an equal amount in the purchase of farming implements "in order that our people may earn their livelihood instead of being dependent upon alms whose regular arrival tends to encourage vagrancy and to destroy self-respect."

CRUELTY TO DREYFUS.

OFFICERS RESPONSIBLE FOR IT
WILL BE PROSECUTED.

(By Telegraph to Virginian-Pilot.)

Paris, July 10.—It is rumored that as a result of the revelation of the inhuman cruelty practiced upon Dreyfus while on Devil's Island, M. Lebon, the Minister who was responsible for the orders sent to M. Deniel, while in charge of the penal settlement where Dreyfus was confined, will be proceeded against, the government not condoning its action to yesterday's dismissal of Deniel.

M. Bertillon, the hand writing expert, who testified before the Court of Cassation that Dreyfus was the author of the bordereau, still remains at the head of the Anthropometric department of the Prefecture of Police, but has been deprived of his official duties.

FINDS FAVOR WITH A STANDARD
OIL MAGNATE.

(By Telegraph to Virginian-Pilot.)

Savannah, Ga., July 10.—J. Clisby Wise, a young man of Macon, Ga., is being congratulated upon an unexpected piece of good fortune, the story of which came out here to-day. He has been presented with a modest fortune by Henry M. Flagler, the Standard Oil and railway magnate.

Several years ago Mr. Flagler met Mr. Wise in North Carolina at one of the mountain resorts. The young man is a handsome fellow, with an ease and

San Francisco, Cal., July 10.—Several leading citizens of Guatemala, just arrived on the steamer San Juan, confirm the reports that a revolution is threatened in that country. A prominent planter now here said:

"The inflated currency combined with the surplus production of coffee, explains the conditions. Of late years every bit of arable land has been used for the growth of coffee, with the result that there is over-production."

The call says that President Cabrera is charged with having ordered the coinage of a silver standard piece, six hundred fine, in place of \$35 fine. This

Vienna, July 10.—The United States Government has declined the proposal of the Government of Austria-Hungary to arbitrate the claims for damages arising from the death of Austrian-Hungarian subjects during the rioting at Hazleton, Pa., in September, 1897.

THE NEWS CONFIRMED.
Washington, D. C., July 10.—The officials here confirm the advices from Vienna that a plan of arbitration, proposed as a means of settling claims growing out of the Hazleton, Pa., riots, had been rejected by the United States. This probably disposes of the matter, according to the view held here, as it has run the entire gamut of diplomatic

DISCRIMINATING
FREIGHT RATESAn Important Investigation in
Progress at Wilmington.

THE SPECIFIC CHARGE

Railway Lines Connecting Charleston,
Norfolk and Wilmington with
Western and Southern Points Accused of Making Discriminating
Rates in Favor of Norfolk and
Against Charleston.

(By Telegraph to Virginian-Pilot.)

Washington, July 10.—The Interstate Commerce Commission to-day began the hearing of the discriminating freight rate case in which the Charleston, S. C., Bureau of Freight and Transportation appears as complainant against the various railway lines connecting Charleston, Norfolk and Wilmington with points West and South. There are about forty individual roads named as defendants, the Southern, the Atlantic Coast Line Association, the Seaboard Air Line and the Baltimore and Ohio.

The charge is the long-standing complaint of Charleston that discriminating rates are made by the railways in favor of Norfolk and against Charleston both on products from the West and for foreign and coastwise shipment and for railway distribution from Norfolk to other southern points.

RAILWAY MEN AND COUNSEL.
The hearing began to-day before Commissioners Clements, Prouty and Calhoun. There appeared for the complainants J. P. K. Bryan, counsel, and John A. Smith, manager of the Charleston Freight Bureau. Counsel for the defendant carriers was Edward Baxter.

Among those present at the hearing were William Campbell, General freight agent of the Chicago and Eastern Illinois Railway; J. M. Culp, traffic manager of the Southern Railway; and H. W. Glover, traffic manager of the Seaboard.

THE FIRST WITNESS.
The first witness was S. F. Parrott, chairman of the Southeastern Freight Association. His examination developed the fact that this association was the successor of the Southern States Freight Association and this in turn of the old Southern Railway and Steamship Association. Mr. Parrott said that a good many arrangements of the latter association were still in force as to the rates from the East to South-eastern seaboard points. He was not fully conversant with the way these rates had been made. Changes in rates were usually discussed at the meetings of the association, although it did not undertake to make and enforce them.

WHAT CAUSED THE TROUBLE.
As the first section neared the point where the accident occurred the motorman saw a colored man walking along at the right hand side of the track. He states that the man suddenly started to cross the track in front of the train. The train struck him and all the cars passed over him, it is supposed.

Mr. Perry stated that he was in the parlor car and felt four distinct bumps as the wheels of this car passed over the man's legs. Mr. Perry asked the motorman what was the matter and he replied that he had run over a man.

THE COLLISION.
The first section was then slowed down almost to a stop, when it was seen that a collision with the second section was imminent, and the first section was started up, but too late, and the second section crashed into it driving the trailer of the first section into the parlor car in front.

Immediately there was great confusion, but the trainmen and others kept their heads and averted a panic, which might have been serious, as there is a ditch there on both sides of the track.

THE INJURED.
Investigation showed that the colored man, Emmett Holmes, had one foot cut off and the other leg hopelessly crushed. Motorman Davis, of the second section, was picked up injured, how badly is not at this hour known. He started to walk, but was unable and was soon taken to Ocean View with Holmes.

There they were attended by Dr. Skillman, of Ocean View, and Dr. Burgess, who was hastily summoned from Norfolk.

BROUGHT TO ST. VINCENT'S.
Motorman Davis, who resides with his mother at No. 94 Wood street, was brought up to St. Vincent's Hospital. At 1:45 a. m. this paper learns that his injuries are only slight, being painful, but not serious, bruises.

Holmes was placed in a cottage at Ocean View. He is badly hurt, but will probably survive.

THE DAMAGED CARS.
The rear end of the parlor car was stove in, both ends of its trailer smashed, the trailer thrown across the track entirely blocking it, and the motor car of the second section was damaged but not rendered unserviceable.

PRESIDENT WILLIAMS.
President R. Lancaster Williams was at once notified and quickly on the scene of the accident. He saw that extra trains were run until after midnight, and all passengers transferred both ways as fast as possible. He also arranged for extra street cars to meet the Ocean View trains and take people to all parts of Norfolk, running as late as necessary.

TO SAVE A LIFE.
No blame seems to attach to the train men, as the wreck occurred in an effort to save the life of the colored man, who had no right on the track. Their presence of mind during and after the wreck was also very favorably commented on.

MR. PERRY'S ESCAPE.
Mr. J. W. Perry, about twenty minutes before the accident, sat on the front seat of the trailer of section one, but left there and went into the parlor car, thus probably saving his life, as both ends of this car were wrecked.

Motorman James R. Robinson was running the first section.

REJECTED BY PENNSYLVANIA.
At the outset the State Department called the matter to the attention of the Governor of Pennsylvania, who in turn awaited the action of the grand jury at Hazleton, which tried the sheriff on the charge of murder. The jury acquitted the sheriff, whereupon the Pennsylvania authorities held that they could not recognize a responsibility which a jury had held did not exist.

The State Department took a similar view, whereupon Austria-Hungary proposed arbitration of the claims. It is this last proposal which is rejected, which seems to close the matter, as the claims are hardly considered of sufficient importance to justify Austria-Hungary to go beyond the diplomatic representation she has made already.
